DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, Figs. 3-4, in the reply filed on 03-28-2006 is acknowledged. The applicant indicates that all pending claims, namely claims 1-30, read on the elected species. However, Figs. 3-4 do not support claims 8-14, 21-24, and 26-30 and therefore these claims are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Claim 15 is generic.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art (hereinafter "APA").

4. Regarding claim 15, the APA, such as described in the specification on page 1, lines 10-13, and page 2, lines 9-22, of the specification, lines 10-13, discloses an air seal system for a loudspeaker comprising: a housing; a baffle board, and a means for creating an airtight seal between the housing and the baffle board via a flat foam gasket or liquid gasket material.

Allowable Subject Matter

5. Claims 1-7 and 25 are allowed.

Art Unit: 3677

6. Claims 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
